HOME FACTS AND FANCIES.

THE ELECTION .- On last Friday, the election for Borough officers came off in this place .-No political issues entered into the contestthe principal matter at variance being the "hog question." One party, upon whose banner, very appropriately fastened to a deg-wood staff, was painted with brilliant lampblack, an exquisite picture of a "juvenile pig" tied with a log-chain, were favorable to an ordinance requiring the impounding of all quadrupeds of the species swine; the other, whose motto was "Root hog or die," held that in this land of liberty, Porke full right to run at large and do as he ple d. The day was a fine one -the sun shining brightly high up in the azure vault, above clouds about four fathoms thick, which were showering down upon the devoted heads of the combatants a goodly supply of snow-the gentle zephyrs were swaying the trees, till out of sheer respect they bowed their heads to the earth-and the atmosphere was redolent with the balmy breath of old Boreas. It was a fit day for such a contest, which soon waxed warm-anxiety was depicted on many a countenance, and in some in stances the controversy is said to have become unusually spirited, though we wont vouch for the accuracy of the report. At last, after a hard day's engagement, the battle was ended, when it appeared that the anti-run-at-largehog ticket was elected. We are pleased to be able to state that no blood was spilled or bones broken. The only speial damage done fell upa very rye (wry) appearance. Of course, nobody nose (knows) whose it was. N. B. Country hogs visiting town will here-

after be required to have special permits in the shape of rings in their noses, and so forth.

W-H-E-w!-On last Thursday morning, we had undoubtedly the coldest weather that has been experienced here, not only this winter, but at any time within the recollection of our oldest citizens. At 5 o'clock the mercury was between 36 and 38 deg. below zero; at 72 o'clock it was still 34 deg. below; at 10 o'clock, the sun shining at the time, it was at 6; and it was not until near 11 that it rose to zero. At 11, the mercury rose 2 deg. above. In all the short thermometers, the mercury was compressed into the bulbs. Such extreme cold was calculated to test the nerves of sensitive people at least. As for ourself, wrapped in a huge cloak, our feet sticking in the fire, with everything aqueous congealing around us, we were pondering as to the probability of our having been metamorphosed into a Laplander and translated into the Arctic regions, and were beginning to speculate upon the chances of the north pole making fire-wood, when our reverie was interrupted, and we were brought to recognize our own identity and whereabouts by a friend rushing in and hurriedly asking if it wastn't "most d-awfully cold !"

BOROUGH OFFICERS .- The following persons, who constituted the "Young American" tickday :- Burgess, George D. Lanich, Sr. ; Town Council_W. A. Wallace, Jas. Alexander, W. S. Bradley, Jos. W. Baird, Henry W. Park; High Constable-William Reed; School Directors-John McPherson, L. J. Crans; Assesman; Constable-Wm. R. Barr; Overseers of Poor-M. Shirk, C. D. Watson; Auditors-W. F. Irwin, O. B. Merrell, J. L. Cuttle.

CAVED-IN .- The roof on the new office of Wm. A. Wallace, Esq., was crushed down on last Saturday evening by the weight of the snow which had collected on it. The top of the brick walls are somewhat damaged, though perhaps not to a very great extent. There is danger to be apprehended from the large quantity of snow on roofs, and it might be well enough to remove it soon.

THE SLEDDING during the past week was as much drifted, and for several days we had a perfect rush of sleds, loaded with flour, grain, pork, &c., from Indiana county. Sellers ask \$11 a barrel for flour, \$1,75 for wheat, 8 cts. for pork, and other things in proportion. For expanded prices and tall snow drifts, Clearfield is hard to beat.

The other day we heard a gentleman from Marietta tell the best anecdote of "the season." He says that Dr. Kane, accustomed to the extreme cold of the Arctic regions, had to -put on linen clothes, and walked down Chestwas 5 deg. below zero. Kane must either be "some" on cold weather, or people tell high pressure stories about him.

LAWRENCE TOWNSHIP .- The following officers were elected in this district on last Friday :- Richard Shaw, Jr., Justice; Matthew Ogden, Jr., Constable; John Orr, A. H. Reed, Supervisors; W.P. Fulton, Ross Read, School Directors; Wm. A. Read, Assessor; Jas. A. Inspectors; Joseph Jordan, Judge.

A RATEROAD MEETING is to be held at the Court House this evening, for the purpose of advancing the Tyrone, Clearfield and Erie Road. It is to be hoped that every individual that possibly can, will be in attendance to aid in pushing along an enterprize that will confer so many and such lasting benefits, if carried into effect.

IMPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS .-- ARTHUR'S PATent Air-Tight Self-Sealing Cans and Jars, for Preserving Fresh Fruits, &c.—This invention for which a patent has been obtained, commends it-self to the attention of Housekeepers and others, n account of its great simplicity, and the affects at manner in which it accomplished a very desi-

rable and useful object.
The cans and jars are constructed with a chan nel around the mouth, nerr the top, into which the cover fits loosely. This channel is filled with a very adhesive cement, prepared for the purpose and allowed to harden. In order to seal the vessel hermetically, it is only necessary to heat the cover alightly, and press it into place. It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans. used for the same purpose for which this is intended cannot be closed, as is well known without the aid of a tinner; are difficult to open, and are generally o much injured in opening as to be useless for

future service. By this simple contrivance, the process of hermetical sealing is placed conveniently within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept with their natural flavor unimpaired, for an in definite length of time.
